(b) Why do smokers put fire on cigarettes before smoking?

(c) Give two reasons for smoking in human beings.

(i)

(ii)

The diagrams below show musical instruments. Study and use them to answer questions that follow.

X

Y

42. (a) Which instrument produces sound with the highest pitch?

(b) Why do the instruments shown above produce sound with different pitch?

(c) Give two factors which determine the pitch of sound.

(i)

(ii)

43. (a) Give two natural processes which increase the amount of carbon dioxide in the atmosphere.

(i)

(ii)

(b) Which part of air do plants use to make;

(i) Starch?

(ii) Proteins?

44. (a) Name the type of burns which lead to the formation of blisters on the skin.

(b) Why is it not advisable to burst the blisters in case of burns?

(c) State the recommended first aid for burns.

(d) Give one cause of burns to the human body.

(a) Name the structure which produces and stores seeds in pine plants.

(b) How are pine plants different from ferns in their way of reproduction?

(c) Give two plants which reproduce in the same way as pines.

(i)

(ii)

The diagram below shows essential male sex organs. Study and use it to answer questions that follow.

(a) Name the parts marked;

(i) M

(ii) N

(b) Give the function of the following parts in reproduction;

(i) L

(ii) Scrotum

7. The table below shows food nutrients, deficiency diseases and signs and symptoms. Fill in the missing information.

Nutrient (s)	Deficiency disease (s)	Signs and symptoms
Vitamin C	(i).....	Poor healing of wounds
Vitamin A	Night blindness	(ii).....
(iii).....	Kwashiorkor	Little brown hair on the head
Carbohydrates	(iv).....	Bright eyes

8. (a) Why are ticks called parasites in farm animals?

 (b) How do ticks spread diseases in cattle?

 (c) Give two diseases spread by ticks among cattle.
 (i).....
 (ii).....
9. (a) Which component of environment provide solar energy?

 (b) Why are solar panels painted black?

 (c) Give the role of the following when harvesting solar energy.
 (i) Solar panel.

 (ii) Solar battery.

The diagram below shows a method of making water clean. *Study and use it to answer questions that follow.*

50. (a) Name the part marked Q in the diagram above.

 (b) Which method of making water clean is shown in the diagram above?

 (c) Give the role of cold water in the above process.

 (d) Why is water prepared using the method above not good for drinking?

51. (a) Give two useful insects in the environment.
 (i).....
 (ii).....
 (b) Write down two uses of insects in the environment.
 (i).....
 (ii).....

52. (a) Which type of energy is possessed by a rolling stone?

(b) State the energy change which occurs when a rolling stone comes to rest.

(c) Give two forms of energy in the environment.

(i).....

(ii).....

53. Match items in A with those in B about prevention of malaria.

	A	B
(i)	Clearing bushes	Protect the human body against mosquito bites
(ii)	Mosquito nets	Fish eat mosquito larvae
(iii)	Spraying	Destroys hiding places for mosquitoes
(iv)	Rearing fish	Kills adult mosquitoes

(i) Clearing bushes

(ii) Mosquito nets

(iii) Spraying

(iv) Rearing fish

54. (a) Give two types of sexual changes which occur among adolescents.

(i).....

(ii).....

(b) Write down two signs of sexual maturity in adolescent girls.

(i).....

(ii).....

The diagram below shows the beak of a bird. *Study and use it to answer questions that follow.*

55. (a) Name the group of birds with the beak shown in the diagram above.

(b) What type of food do the birds named in (a) above feed on?

(c) Give two birds with the beak shown in the diagram above.

(i).....

(ii).....
