.....
.....
32. In which type of germination do the cotyledon move above the ground?
.....
33. What is a magnet?
.....

34. **Below is a lever system.** Name part **P**.

-
35. By the help of an arrow, indicate the direction of the effort at point **K**.
36. Of what importance is the cranium to the human body?
.....
37. Give one example of a plant with prop roots apart from roots.
.....
38. Name the part of a bean seed that stores food.
.....
39. Why do we need to bathe daily?
.....
40. Mention any one type of soil you know.
.....

SECTION B (60 Marks)

41. a).What is smoking?
.....
- (b).Give two reasons why people smoke.
(i).....

(ii).....

(c). Which organ is affected severely by excessive smoking?

42. a). Suggest any two ways soil erosion can be controlled.

(i)

(ii)

(b) Give two agents of soil erosion.

(i) (ii).....

43. Below is an electric circuit. Study it and answer questions that follow.

(a). Name part marked **R** in the diagram above

(b). State what will happen to part **R** if part **S** is closed.

(c). Give a reason for your answer in (b) above.

(d). How does a fuse work?

44. a). Why are bees called “**social insects**”?

(b). What term is used to mean insects that do not live and work together?

(c) State one reason why people have started rearing bees on a large scale.

(d) Why do bees visit flowers?

45. a). Define the term First Aid.

(b) Give two reasons why first aid is given

(i)

(ii)

(c) Of what importance is a stretcher in giving first aid?

46. (a). Name the body organ that allows the following process to take place.

(i) Blood getting oxygen

(ii) Filtration of urine

b). How are the following blood components useful in the body?

(i) Red blood cells

(ii). Platelets

47. **Below is a vector. Study it and answer the questions that follow.**

(a). Name the vector above.

(b). How is part **S** important?

(c). State the habitat for the vector above.

(d). How does the above vector protect itself against its enemies?

48. a). What does shearing mean in sheep rearing?

(b). Mention any one disease that affects both human beings and sheep.

(c). State any two products from sheep.

(i) (ii)

49. **A P.5 class mixed sugar and salt in water and stirred.**

a). What do you think happened to sugar and salt?

c). What term do we use to describe a mixture?

d). Write short notes about the following.

(i) Saturated solution

(ii). Super saturated solution

50. (a). How are the following joined up in the body?

(i) Bone to bone

(ii) Bone to muscle

(b). What substance helps to reduce friction in between joints?

(c). Where in the body is a hinge joint found?

.....

51. Use the diagram of an Irish potato below and answer the questions about it.

a). Name part labelled **R**.

(b). How is part **R** useful to the Irish potato?

c). To which group of plants does an Irish potato belong?

d). Apart from an Irish potato, give one other example of the plant that belongs to a group named in (c) above.

52. Below is a method of finding volume, study it and answer the questions that follow.

a). Name the method used above.

(b) Identify part **Q**.

(c). Find the volume of the object. (2mks)

53. a). Define the term “drug prescription”

.....
.....

(b) Give three reasons why it is not advisable to buy drugs from local shops.

(i)

(ii)

(iii)

54. a). Which immunisable disease is immunized by putting a drop in the mouth?

.....

b). Apart from the disease named in (a) above, give any other three examples of immunisable diseases.

(i)(ii)

(iii)

55. **Describe an experiment to prove that water can exist in all the three states of matter.**(4mks)

WE ARE THE ONLY REAL ROAD TO SUCCESS
