A prefix is a beginning part that is added to a simple word.

The negative words below are prefixes "in", "un", "im", "dis", and "mis". Prefixes can also help us to make negative statements.

Examples

Affirmative	Negative

She was happy yesterday.	She was unhappy yesterday.
Bwindi is a penetrable forest.	Bwindi is an impenetrable forest.

The Bridge to Success

They guided us.	They misguided us.
-----------------	--------------------

The prefix "in", which has been added to the word "accurate", has made it to mean "not accurate", "unhappy" means "not happy", "impenetrable" means "not penetrable", and so on.
