30. State one way echoes are controlled in theatres.

Below is a diagram showing a method of making magnets. Study and use it to answer questions 30 and 31.

31. Identify the property of magnets shown in the diagram above.

32. In which way is the above property important to people in their daily life?

33. Apart from compact discs, name any other electronic device used for storing sound energy.
34. State any **one** role of plasma in the body.
35. Which organs are used by both fish and tadpoles for breathing ?
36. Give any **one** example of an artificial fibre.
37. How does mulching help to conserve moisture in the soil?
38. Why do electric wires hanging on poles sometimes appear sagging?
39. Give a reason why it is not advisable to buy and use drugs from local shops.
40. Write any **one** sign of gonorrhoea in men.

SECTION B: 60 MARKS

Questions 41 to 55 carry **four** marks each.

- 41(a) Which structures help to join muscles to bones in the body?

(b) Mention any **one** type of muscles in the human body.

(c) State any **two** ways of caring for the skeletal and muscular system.

(i)

(ii)

42 (a) Apart from evaporation, mention any other example of a physical change in the environment.

(b) Mention any **two** factors that can affect the rate of evaporation.

(i) _____

(ii) _____

(c) How does freezing affect the density of liquids?

43. Below is a diagram of a simple machine. Study and use it to answer the questions that follow.

(a) To which class of levers does the simple machine above belong?

(b) Use an arrow and letter **K** to show the position of the pivot from the simple machine above.

(c) Give **two** reasons why people decide to use simple machines for doing work.

(i) _____

(ii) _____

44(a) Mention any **two** traditional methods used to preserve food.

(i) _____

(ii) _____

(b) Give any **two** reasons why food should be preserved.

(i) _____

(ii) _____

45. Study the list of foodstuffs below and use it to answer the questions that follow.

Irish potatoes	Carrots	Cabbages	Rice
----------------	---------	----------	------

(a) Which **two** foodstuffs from the list above are sources of vitamins?

(i) _____

(ii) _____

(b) Name the deficiency disease controlled when a person feeds on:-

(i) carrots _____

(ii) Irish potatoes _____

46(a) State any **two** ways community members can promote sanitation in an area.

(i) _____

(ii) _____

(b) Mention any **two** dangers of poor sanitation in an area.

(i) _____

(ii) _____

47. The diagram below shows a common bird. Use it to answer the questions that follow.

(a) Name the bird shown in the diagram above.

(b) To which group of birds does the one drawn above belong?

(c) What kind of food does the bird shown above feed on?

(d) How is such a bird useful in the environment?

48(a) Mention any **two** natural causes of environmental degradation.

(i)

(ii)

(b) Give any **two** importance of wetlands in the environment.

(i)

(ii)

49(a) Why are worker bees regarded as sterile bees?

(b) What is the role of the queen excluder in a modern beehive?

(c) In which way are halteres useful to a bee during flight?

(d) How does a crop farmer benefit from an apiary nearby?

50(a) How is each of the following crops harvested?

(i) sweet potatoes

(ii) coffee

(b) State any **two** ways of controlling crop pests without using chemicals.

(i)

(ii)

51. The diagram below shows a body system. Study and use it to answer the questions that follow.

(a) Name the parts marked with letters C and D;

(i) C _____

(ii) D _____

(b) State the function of part marked with letter E.

(c) Mention any **one** disease which affects the above system.

52(a) Write the kind of accident that involves the following activities when giving first aid;

(i) applying clean cold water on the injured part.

(ii) tying splints around the injured part with a bandage.

(b) Give any **two** reasons for giving first aid to casualties.

(i) _____

(ii) _____

53(a) State any **two** signs of calving in cows.

(i) _____

(ii) _____

(b) Give any **two** importance of colostrum to a newly born calf.

(i) _____

(ii) _____

54. Match the words given in **list A** with their correct meaning in **list B**.

List A

capacity

cohesion

adhesion

volume

List B

force of attraction between molecules of the same substance.

amount of a liquid a container can hold.

force of attraction between molecules of different substances.

total amount of space occupied by an object.

(i) capacity _____

(ii) cohesion _____

(iii) adhesion _____

(iv) volume _____

55(a) Mention **one** example of a leguminous plant.

(b) Which useful organisms are found in root nodules of leguminous plants?

(c) Write any **two** advantages of carrying out crop rotation.

(i) _____

(ii) _____
