# LIVING AND NON-LIVING THINGS

What is a living thing?

A living thing grows over time. It needs food, water, air, and sunlight.

Example: tree

## Is it a Living or Non-Living Thing?

What is a non-living thing?

A non-living thing doesn't grow. It also doesn't need food, water, air, or sunlight.

Example: rock

# LIVING AND NON-LIVING THINGS

Everything in the world can be sorted into living and non-living things.

## LIVING

- Grows and changes
- Moves on its own
- Reproduces (has babies)
- Needs water, food and air to stay alive

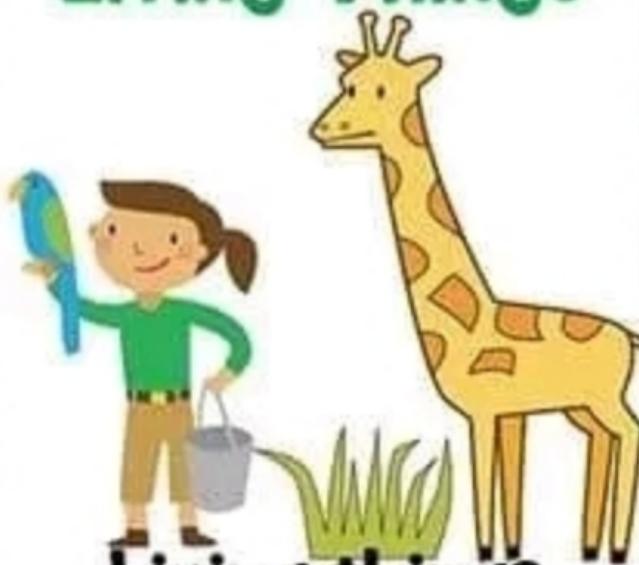

## NON-LIVING

- Does not grow
- Cannot move on its own
- Does not have babies
- Does not need food air or water

## Living Things

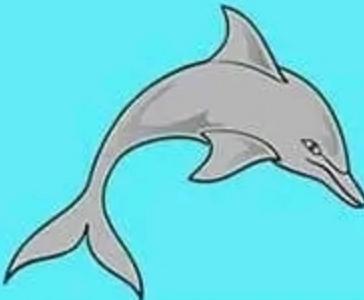

**Living things  
eat, breathe,  
grow & reproduce.**

## Nonliving Things

**Nonliving things  
do not eat, breathe,  
grow & reproduce.**

# Living things

# Non-Living things

1

Some living things move

2

They take food

3

They breathe

4

They grow

5

They reproduce

# Living Things and Their Needs

A dog is a living thing.

television

books

water

It needs: \_\_\_\_\_.

# All living things need:

air

space

food

water

shelter (home)

# Non-living things

2

Things that don't breathe, need food, give birth, grow or feel are called non living things. Books, buses, chairs, buses and tables are non living things. Non-living things are important for living things. Living things need air and water to live. Plants need soil to grow.

# Living Things vs Non-Living Things

## LIVING

## NON-LIVING
