21 - 301. The paper has two sections **A** and **B** 2. Answer **ALL** questions. All answers to 31 - 40both sections A and B must be written  $\overline{41} - 50$ in the spaces provided. 3. All answers must be written using a 51 blue or black ball-point pen or ink. 52 4. Unnecessary changes of work may lead **53** to loss of marks **54** 5. Any **handwriting** that cannot easily be read may lead to loss of marks. 55 Do **not** fill anything in the boxes shown: **TOTAL** "For examiners' Use Only" and those inside the question paper. SECTION A. 1. Name the component of soil which helps to dissolve mineral salts. The diagram below shows an item that is commonly found at home. 2. Give any one use of the above item at home.

Page | 2 "Quality assessment for academic excellence and integral development"

poultry.

3. Apart from gumboro, mention one other example of viral disease in

4. In which way at crop pests lower crop yields?
5. Name the type of chicken reared mainly for egg production.
6. How is maize propagated?
7. State any one way of controlling foot rot disease in cattle.
8. Mention any one source of the raw materials used for making mats.
9. Why is sandy soil not good for crop growing?
10. State any one disadvantage of rearing exotic breeds of chicken.
11. Name the type of soil commonly used in the making of tiles.
12. Mention the external body organ used for hearing.
13. Why is cassava called a root tuber?
14. What happens to the diaphragm when one breathes in?
15. State any one water impurity.
Use the structure of the human heart below and answer question 16. venacasa  Pulmonary vein

16. How is the above organ adapted to its function?

 $Page \mid 2 \qquad \text{``Quality assessment for academic excellence and integral development''}$ 

17. What type of change is rusting?
18. State any one effect of HIV to the body's immune system.
19. Give any one use of chemical changes in our daily life.
20. How is skeletal system useful to the circulatory system?
21. Name the class of food which is made by the help of nitrogen.
22. A part from immunization, state one other way of controlling the spread of Tuberculosis.
23. State any one local material from trees which is used for brushing our teeth.
The diagram below shows an accident. Use it to answer question. 24.
24. Name the kind of accident shown in the diagram above.
25. State the vector for diarrhea.
26. How does sun drying help to preserve cassava?
27. State any one way the body can acquire natural immunity.
28. State any one effect of smoking by a pregnant mother to her unborn baby.

The diagram below shows musical instrument. Use them to answer questions.

- 30. What can you do to make bottle A produce the same pitch of sound as bottle B.
- 31. In which way do scavenger birds help to control easy spread of diarrhea diseases?
- 32. Name the standard unit for measuring weight.
- 33. State one way of reducing echoes in cinema halls.
- 34. Give a reason why birds of prey lack crop.
- 35. Apart from over flow can, state one other instrument used in the measurement of volume of an irregular object.
- 36. Name the group of birds with spoon shaped beaks and fully webbed feet.
- 37. What energy change takes place in a dry cell is in use?

The diagram below shows a beak of a bird. Use it to answer question 38.

38. Why would you group the above bird under birds of prey?

39. Why is distilled water not so useful to the body when taken?
40. Name the male reproductive cell in plants.
SECTION B
41. In one sentence give the meaning of the word, 'Heat'.
b) State any <b>two</b> effects of heat on matter.
i) ii)
c) How do electricians control the effect of contraction on electric wires?
42. a) State any one use of anemometer.
b) State the element of weather which;
i) enables us to dry harvested crops.
ii) enables us to plant seeds.
c) How is rainfall important to a crop farmer?
43. a) How does heat travel through each of the following states? i) solid state
ii) liquid state
b) How useful is the process of heat transfer in i) and ii) above to people? i)

ii)					
	he diagram follow.	n below show	ws an electr	ic circuit. Us	e it to answer questions
		+   -	E	B	
a) N	lame the po	arts of the ci	cuit.		
i) A				ii) C	
•	Give any one E is closed.	e condition v	which may I	make part B	to fail to work when
c) W	/hat is the re	eading in po	ırt D when E	is closed?	
45. l	Jse the table	e about vari	ous animals	and use it t	 o answer the questions
	Р	Q	R	S	
	lion	turkey	tilapia	frog	
	seal		sardines	toad	
	bat				
a)Tc	which grou	ıp of verteb	rates do an	imals in grou	ıp P belong?
b) S <sup>2</sup> Q.	tate any on	e similarity b	etween ani	mals in grou	p P and those in group
c) S	tate any one	e way of ca	ring for anin	nals in group	R.
d) N	lame any or	ne other ani	mal which i	s missing in g	group S.
46. (	a) State any	one way a	housefly is o	able to spred	ad germs.
b) N	Mention one	example of	a diarrhoe	al disease.	
Page	2 "Quality a	assessment for a	cademic excelle	ence and integra	l development"

c) Give any two ways of controlling vectors at home. i)
ii)
47. a) State any one water borne immunisable disease among infants.
b) In which one way does immunization help to protect children against childhood immunisable diseases.
c) State the two vaccines that can be given to children at birth.
ii)
48. a) Name any one source of food in the community.
b) How does poor feeding affect human health?
c) Give two methods used in preservation of food. i)
ii)
49. Use the diagram of items commonly found at home.
A SOME
Soap Tooth brush
a) Of the two items, name one which is used to kill germs .
b) Mention any two reasons for spreading beddings in sunshine. i)
ii)
c) Give any one benefit of bathing daily.
50. a) A part from fertilization, name one other important process that occurs in the oviduct.

 $Page \mid 2 \qquad \text{``Quality assessment for academic excellence and integral development''}$ 

b) Give any one disease and disorder of the productive system.
i) disease
ii) disorder
c) State any one way of caring for the reproductive system.
51. a) Give any one reason for giving first aid.
b) Give any one effect of accidents to the human health.
c) Give any two ways of controlling accidents in busy roads.
ii)
The diagram below shows a type of joint in the human skeletal system. Use
it to answer the questions that follow.
X Z
52. a) Name the type of movable joint shown in the diagram.
b) With the help of an arrow and letter S, indicate the fluid that lubricates the joint. c) Apart from reducing friction, give another function of cartilage found
at the ends of bones at the joints.
d) Give any one importance of joints to arthropods.

53. a) State any one use of the following as energy resources;

 $Page \mid 2 \qquad \text{``Quality assessment for academic excellence and integral development''}$ 

i) water		
b) State any one carrying out affo		nts as energy resource apart from
c) How are plants	s as energy resources re	placed in the environment?
54. Complete the	table below.	
Organ	Digestive juice	Function
Mouth	i)	Softens
i)	Gastric juice	Contains pepsin which digest proteins.
iii)	iv)	contains pepsin, lipace and amylase enzymes.
,	one example of magne	etic and non-magnetic materials.
,	animals	
,	property of magnets	

## **End**

c) What happens to a magnet when it is broken into pieces?
